

Application Form for WFC Scientific Committee

Personal Info.

Name: Christa Zengerer

Title: DI.

Affiliation: Austrian Foundry Research Institute, Austria

Research Interest

- Casting processes & casting materials
- Simulation & Digitalisation
- Metallic materials & material composites
- Climate neutrality, lightweight construction & sustainability
- Computed tomography, visualisation & data analysis

Main Achievements (<200 words)

Christa Zengerer has more than 20 years of experience in the international machinery business since completing her studies in materials science at the Montanuniversität Leoben. She was a member of the management team at MAG Maschinen und Apparatebau AG for 15 years.

As CEO at MAG Maschinen und Apparatebau AG, Christa Zengerer was responsible for the areas of technology including production, research and development and the international sale of wire enamelling machines for 8 years.

Her area of responsibility also included 3 joint ventures, in Russia, China and India.

Christa Zengerer has been managing director of the ACStyria mobility cluster from 2018 to 2023.

Since January 2023 Christa Zengerer is the Managing Director of The Austrian Foundry Research Institute (ÖGI).

Christa Zengerer has been on the supervisory board of Energie Steiermark AG, Austria's fourth largest energy and service company, since 2020.
